Open Meeting
January 15, 2009

Meeting called to order by President Rick Rusk at 6:40

Glynne Taylor and Sean Christiansen from the golf course crew gave a report on the condition of the course, and changes that have been made, and are planned. They are struggling with the greens right now due to Enthracos, and compaction. They will use an aerification technique called vertidrain which is a deep hole, and kick to fracture the soil 10 inches under the surface. They will be doing an intense aerification once in the spring, and once in the fall.

The fairways have been verti-cut, and overseeded with Rye grass. They have also aeriated the fairways, and adjusted the water sprinklers.

This year, and in 2010 they will be renovating #3 tee box, #5, and #15 in this order. They will also be doing work to improve the drainage in front of the 9th green. Also in the spring of 2009 they will be leveling the mounds in the maintenance area in back of the driving range. In 2008 they dug out, and refilled the bunkers on #2, 6, 13, 16, and 17.
