

Notes from November 4th meeting with the City and SRI

As reported by Bryan Lange:

Working on refreshing 4 tee boxes a year, 2 in spring and 2 in fall.

Bathroom by #3 tee box. Had to move it as it sits on a leech field so taking longer to get permits and finish it.

Aware of tree problem and although had no solid plans of replanting were going to look into it and are open to donation of trees. Some point in past we (rgc) were told we could not donate trees.

The over watering was discussed.

We talked about the fact that DO is debt free but they are still paying on Woodcreek so although DO is the "cash cow" the money is not all available for course improvement.

The contracts for both SRI and Legends are coming up for bid.

RGC made it clear that the staff and pro in the shop and the staff in Legends were second to none as they are all friendly and so helpful.

Note: No formal board reports as this was a joint meeting with the City of Roseville and SRI leadership.

Bryan
